Customized Comparison Groups

The NSSE *Institutional Report* displays core survey results for your students alongside those of three comparison groups. In June, your institution was invited to customize these groups via the "Report Form" on the Institution Interface. This report summarizes how your comparison groups were selected and lists the institutions within them.

NSSE comparison groups may be customized by (a) identifying specific institutions from the list of all current-year participants, (b) composing the group by selecting institutional characteristics, or (c) a combination of these. Institutions that choose not to customize receive default groups^a that provide relevant comparisons for most institutions.

Institutions that appended additional question sets in the form of topical modules or through consortium participation were also invited to customize comparison groups for the corresponding reports by choosing from the institutions where the question sets were administered. The default for these groups is all other institutions where the questions were included. Please note: Comparison groups for additional question sets (topical modules and consortium questions) are documented within those reports.

Report Comparisons

Comparison groups are located in the institutional reports as illustrated in the mock report at right. The three groups are "Public Research Univ," "Large Public," and "NSSE 2013."

Reading This Report

This report consists of three sections that provide details for each of your comparison groups, illustrated at right.

Comparison Group Name
The name assigned to the comparison group is listed here.

How Group was Selected
Indicates whether your group was drawn from a list, built based on criteria, or is the default group. If institutional characteristics were used to build your comparison group, they are listed here.

Institution List
The names, cities and states or provinces of the comparison institutions are listed for your reference.

Comparison Group 1: Public Research Univ
This section summarizes how this group was identified, including selection criteria and whether the default group was used. This is followed by the resulting list of institutions in this group.

Date submitted	7/2/13
How was this comparison group constructed?	Your institution customized this group by selecting institutional characteristics as follows: Sector (Pub); Basic Classification (RU/VH, RU/H)
Group description	No description provided
